Website
www.eduardtymoshuk.epizy.com

From a young age, I was interested in web development. I have finished the "Javascript + React/Redux" course and now I'm actively expanding my knowledge and developing myself in this direction, learning new libraries and technologies like TYPESCRIPT, SCSS, Tailwind, NEXT.JS, etc.

Projects

PostIt App

<https://postit-react-next-app.vercel.app>

Stack: React, Next.js, Tailwind, Prisma

Full Stack web application which allows you to make posts, comment other's people posts, like it and delete your own posts.

My personal web page

www.eduardtymoshuk.epizy.com

Stack: React, Next.js, Styled Components

My personal webpage with CV, about me informations and projects.

Bonbonfrancais: web page for French teacher

www.eduardtymoshuk.epizy.com/projects/bonbonfrancais

Stack: HTML5, CSS3, JS, Bootstrap5

A web page for online French teacher. Website uses a simple REST API made with MongoDB and Express for leaving feedback. During this project I learned how to build a fully responsive web page with HTML5, CSS3, JS, implement an additional functionality, communicate with REST API and deploy page to the hosting. I also expand my knowledge of Bootstrap librar and got a basic knowledge of Node.js, MongoDB and Express.

Work History
